Celebrating
10
YEARS OF ADVOCACY

The logo for the 10th anniversary of Catawba Riverkeeper. It features the word "Celebrating" in a gold, cursive font above a large, bold, gold number "10". Below the "10", the words "YEARS OF ADVOCACY" are written in a smaller, gold, sans-serif font.

Lake James at 9 feet below full pond (between Linville Access Area and the Linville River). Note new vehicle tracks where people are now driving around the edge of the lake on land that is normally under water.

Lake James at 9 feet below full pond-area normally under water.

Lake James at 9 feet below full pond-area normally under water.

Creek normally contains 5 times more flow. Note beer bottle, vehicle tracks crossing creek, and tire.

Under water fish habitat structure, high and dry.

A closer look at what was once an under water fish habitat structure.

Many acres of lake now dry.

Lake James State Park Swim area-the beach is normally under water and orange buoy line is normally floating in chest deep water.

Thanks to all Catawba Riverkeeper Foundation members
for their ongoing commitment and financial support.

They make presentations like this possible!
